

Peter Sylvan Vecina, Software Developer

Cebu City, Philippines, +63 993 395 3345, petersylvanv123@gmail.com

PROFILE

Enthusiastic Computer Science student with a solid grasp of programming fundamentals and a growing skill set in web development and data analytics. Have experience working with Django, building small projects, and exploring React.js, Node.js, Next.js, Nest.js, and Express.js. Familiar with data cleaning and analytics using Python, continuously improving in backend and frontend development. Passionate about learning new technologies and solving problems through code.

EDUCATION

Aug 2022 — Jun 2026	Computer Science, Cebu Institute of Technology - University	Cebu City
Jun 2016 — Jul 2022	University of San Jose - Recoletos	Cebu City
	Graduated with Honors	

EXPERIENCE

- Built GitJob, a LinkedIn-like job platform using Django and HTMX with job postings and user management with significant features like chat messaging and database handling.
- Built OnlyFit, a personal gym app using HTML/CSS, PHP, and SQL with gym exercise plan and user management.
- Explored React.js and Node.js by developing small projects to understand frontend-backend interactions.
- Worked with REST APIs, integrating third-party services and handling data exchange between frontend and backend
- Developed small web applications with Django, integrating authentication, CRUD operations, and databases.
- Strong understanding of programming fundamentals, including algorithms, data structures, and OOP.
- Continuously learning full-stack development, AI, and tech innovation.
- 100+ problems solved at Leetcode with Python/Javascript/Java

SKILLS

React	SQL
C++	Python
HTML & CSS	Django
Git	Nest.js
JavaScript	Node.js
PHP	Next.js

COURSES

Aug 2022 — Dec 2022	CS50P, Harvard University
